### Organisational Context

Women's Health West is the women's health service for the western metropolitan region of Melbourne. We focus on supporting women and their children to lead safe and healthy lives and on changing the conditions that cause and maintain inequity and injustice. We do this through two main complementary programs. Our health promotion program plans and implements activities designed to promote women's health, safety and wellbeing across the areas of sexual and reproductive health, mental health and the prevention of violence and discrimination. Our integrated family violence service provides a range of programs to women and children who experience family violence, including court support, crisis housing and case management. We also provide services designed to promote healing and recovery such as women's and children's counselling. We work collaboratively with communities, government and local agencies to influence public policy or change legislation, to improve access to services and resources, and to build individual, community and organisational capacity to improve the status of women. WHW is funded by local, state and federal government grants, and receives additional funding from benevolent trusts and philanthropic organisations.
