

14 December 2017

Mr Kelvin Tori
Chief Executive Officer
Melton City Council
232 High Street
Melton Victoria 3337

Dear Mr Tori

Re: Support for Redevelopment of Melton Central Community Centre funding submission – 2017 Building Better Regions Fund

This letter is to confirm Women's Health West's support for Melton City Council's application to the 2017-19 Building Better Regions Fund, for the redevelopment of Melton Central Community Centre. Women's Health West is committed to improving equity and justice for women in Melbourne's western region. We deliver family violence services and undertake health promotion actions.

Women's Health West supports this project and acknowledges that the redevelopment of the Melton Central Community Centre will provide a range of new community services to the broader Melton municipality. In particular, there will be a focus on the provision of a range of services for the rapidly growing culturally and linguistically diverse (CALD) communities in Melbourne's west.

This project will benefit the community through: stronger, more resilient and liveable communities; improved local economy; and improved ability to respond to community needs and demands.

The redevelopment of the Melton Central Community Centre will provide a needed community venue for the provision of vital services and community programs that Women's Health West delivers across Melbourne's western region, including integrated family violence services, young women's leadership programs, women's financial literacy programs, and health and wellbeing programs for women with a disability.

Yours sincerely

Elly Taylor
Director of Strategy, Advocacy and Community Engagement
